

More powerful

More powerful

The new advanced DUOX system offers much more

Higher performance and increased capacity, faster and more user-friendly, but above all, it brings us to a new technological dimension destined to define the future of video door systems.

DUOX PLUS brings the **MOST POWERFUL**

2-wire digital system to your home.

2 wires

A fully digital door entry system that works with 2 non-polarised wires from start to finish in the installation.

user-friendly

Since the system is entirely digital, the type of wiring has much less of an effect on the quality and performance of the system.

Furthermore, very few intermediary elements are required, which saves considerable time in the installation.

scalable

Up to 10 panels and 10 guard units at the general entrances.

Up to 10 panels and 10 guard units in each building or block of apartments.

Up to 100 blocks and sub-blocks.

intuitive

The DUOX PLUS monitors can be programmed in just a few seconds, directly from the OSD menu.

no limits

DUOX is designed to work with all kinds of projects; large or small, simple or complex, vertical structures or horizontal installations.

product range

A broad variety of outdoor panels and indoor terminals with an exclusive design and advanced functions, without any increase in price.

connectivity for everyone

With DUOX PLUS, Fermax can introduce any kind of building or home to the world of connectivity, incorporating mobile call divert into even the most basic monitors.

+ capacity

DUOX PLUS allows you to push the boundaries of digital technology.

Thanks to the digitalisation of the system, it can now be used in all kinds of installations.

The more complex the installation is, the more powerful DUOX PLUS will be.

flexibility

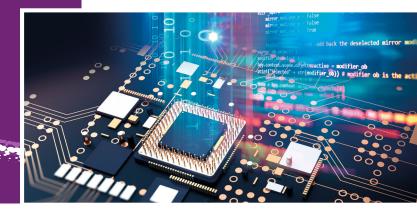

Can be easily replaced, with no need to change the installed wiring. Considerable time saving during installation and maintenance.

- . Designed to handle external interference.
- . Consistent quality throughout the installation.
- . The regenerators boost the signal.
- . Capable of communicating over long distances.

at no additional cost.

+connectivity

Our systems provide a wide range of different possibilities for security, mobility and comfort, inside and outside the home.

All video kits now include a WiFi monitor as standard, at no extra cost!

CONNECTIVITY FOR ALL

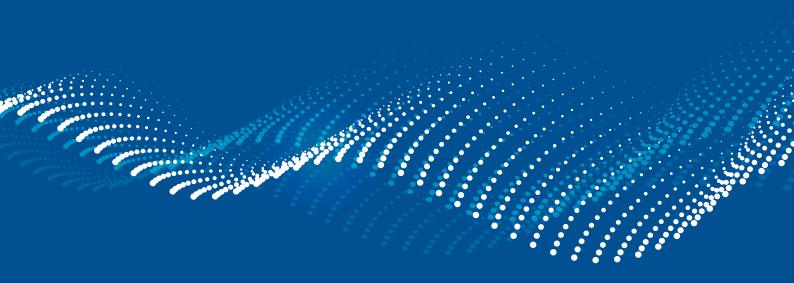

product range

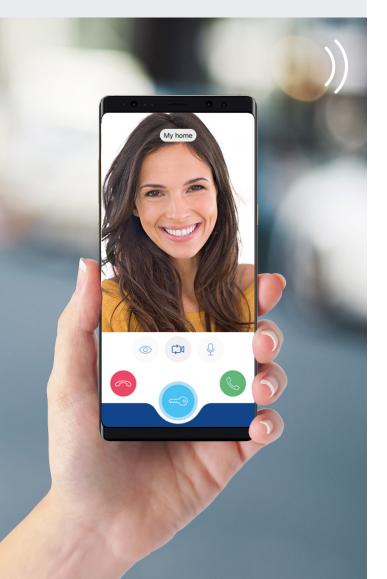

WiFi monitors

Features of WiFi monitors

VEO and VEO-XS 4.3" colour monitors and VEO-XL 7" colour monitors, made from high-impact ABS plastic and UV protection, with settings for contrast, brightness, colour, audio volume, call ring tone volume, do not disturb function, doorbell, date and time, silicone buttons for activating the lock release that are pleasant to the touch, access to the main OSD menu from the screen, activation of the outdoor panel camera, and various other additional configurable functions such as activating second access, courtesy light, etc. Available in white and for surface installation.

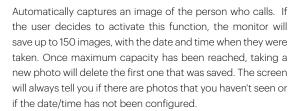

Three WiFi monitor options: the VEO monitor with its unique handset design incorporating a magnet that enables the user to hang up correctly at the end of the conversation, and the VEO-XS and VEO-XL hands-free monitors.

Call divert to mobile

The DUOX PLUS VEO. VEO-XS and VEO-XL WiFi monitors are equipped with a WiFi connection, allowing for calls to be diverted to mobile devices.

With the BLUE app by FERMAX you can manage all the video door functions and much more directly from your mobile phone or tablet.

VEO, LOFT AND ILOFT TELEPHONES

3444

DUOX PLUS VEO TELEPHONE Includes volume control. Dimensions: 82x214x43 mm.

3452

DUOX PLUS LOFT EXTRA TELEPHONE Includes 2 buttons for extra functions: turn on lights, open 2nd door, etc. Dimensions: 85x220x40 mm.

3450

ILOFT DUOX PLUS TELEPHONE Hands-free. Includes volume control and a button for additional function. Dimensions: 90x146.5x20 mm.

DUOX PLUS AUDIO VEO GUARD UNIT

DUOX PLUS Audio Guard Unit has a multi-functional 4,3" capacitive touchscreen and quick function access buttons for easy convenient management. Its unique handset design incorporating a magnet enables the user to put it back into position correctly. It includes a stainless steel desktop support. It allows a surface installation.

Dimensions: 200x200 mm. Support included.

outdoor panels

SKYLINE

FERMAX MODULAR PANEL Made of aluminium, it is the most versatile panel. Its modularity allows to respond to any residential or commercial project.

CITYLINE DIGITAL

MONOBLOCK CONCEPT PANEL Characterised by its curved profile, it is manufactured in a highly weather resistant anodised aluminium profile.

MARINE

VANDAL-PROOF DOOR ENTRY PANEL Made in stainless steel. It is the perfect choice for adverse or extreme climate conditions.

MARINE ELITE

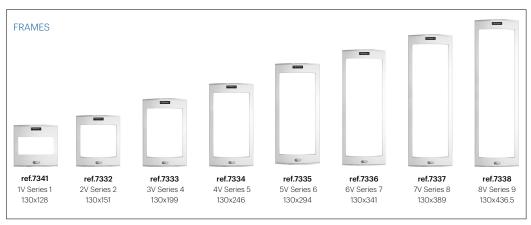

A VERY OWN PRODUCT
The MARINE ELITE range of panels
allows total creative freedom:
any colour, any size and any
composition.

MARINE ELITE

FERMAX has a laser-cut machining line for stainless steel panels.

This process allows us to offer complete flexibility when it comes to producing the required Marine panel, with optimal delivery time for personalisation.

BRASS COLOUR

31728 DUOX PLUS MARINE ELITE PANEL

The following variations may be ordered:

- · Panel with special formats and dimensions.
- · Integration of access control modules and special combinations.
- \cdot Logotype laser marking. The engraving of panels is only available on the panels with stainless steel colour. Other colours cannot be engraved.
- $\cdot \mbox{ Residence/Building number and messages integration.}$
- · Push buttons without card slot and free layout.
- · Backlight option.

4580 MARINE ELITE FLUSH BOX

4581 MARINE ELITE SURFACE BOX (WITH HOOD)

Surface boxes and hoods are not available in brass colour.

The MARINE Elite panels are available in several colours, indicate the desired RAL when ordering your panel.

RAL 3020

RAL 5005

GOLD

RAL 9018

RAL 9016

Check for availability in other colours.

You can find the application for special panels and frames on our website: https://fermax.com/intl-en/tools/special-panels

DECODER

9419 DECODER/AISLADOR DUOX PLUS

10-outputs floor decoder. One output per home, allowing up to 3 terminals (monitors/telephones) per home. Each output allows to increase the diversion distances on a floor up to 100 m.

In the event of a malfunction (short circuit) of any of the decoder's outputs the rest of the outputs will continue to operate normally.

It is not necessary to enter a house to program the address of the terminal since the decoder includes a group of microswitches (dipswitches) to program the addresses of each of its outputs (sequential programming). Also, the decoder addresses can be programmed non-sequentially (open programming).

The decoder is powered directly from the DUOX PLUS bus. With DIN10 rail mounting and removable terminal strips for easy wiring and installation.

POWER SUPPLY AND ADAPTORS

3255 DUOX PLUS LINE ADAPTOR

Necessary at the beginning and the end of every riser.

4825 POWER SUPPLY + FILTER 24Vdc-2.5A DIN10

4840 POWER SUPPLY DIN-6 100-240Vac/24Vdc-2A

To be used exclusively with the filter ref. 3289 or with the 2 WAY Regenerator ref. 3269.

3289 FILTER DUOX PLUS 24Vdc

To be used with the PSU ref. 4840, in those installations where the PSU ref. 4825 cannot be used due to its dimensions. Cannot be used with 18Vdc power supplies, which must be installed with filter ref. 3244.

4802 POWER SUPPLY 12Vac/1A DIN44800 POWER SUPPLY 12Vac/1,5A DIN4

For altern lock release.

| 0.2mm ² | 16 | 12 | 14 | 10 | 10 | 8 |

REGENERATORS

They allow the signal to be regenerated and amplified in both ways, and they also increase distances and the number of terminals. The sections connected to the input and output protect against short-circuit, overloads and signal reflections. Maximum of 5 units in cascade. Up to 99 if they are connected in parallel.

3269 2/W DUOX PLUS REGENERATOR

It has 1 input and 2 outputs. By having 2 outputs (also isolated from each other) it enables the number of risers to be increased. Requires 24Vdc power supply without filter (ref. 4840).

For more information: https://fermax.com/intl-en/documents

3268 1/W DUOX PLUS DUAL REGENERATOR

It has 1 input and 1 output. As per factory default settings, electrical energy does not flow, but this can be configured via a dipswitch so that the data (which regenerates) as well as the power supply can pass through. That way there is no need to always install a power supply at the output. The number of devices that can be fed at the output without an additional power supply units will depend on the power that reaches the regenerator.

For more information: https://fermax.com/intl-en/documents

| 3268 | 1 | 1 | YES | YES | NO | YES (in multichannel mode) |

ACCESSORIES

3233 DUOX PLUS BASIC RELAY

Basic functions. Allows you to activate an additional function from F1 or F2 of the DUOX PLUS terminals, without additional wiring. The relay can also be activated by the call or by activating the lock release. It can be connected at any point of the bus.

3267 DUOX PLUS RELAY MODULE

Advanced functions. Allows you to pair 2 relays, 1 as a transmitter and other as a receiver, to perform remote activations. An address can be programmed with the address assistance (001-999) using the DUOX PLUS Programmer ref. 3254 via the relay's telephone connector.
